PERSONAL STATEMENT

A software engineering graduate with more than six years of hands-on experience in efficiently developing large-scale web-based systems. Possesses extensive expertise in backend and REST API development using PHP and Laravel, Node.js, and Nest.js, alongside a strong foundation in front-end development. Committed to crafting clean code and adhering to best practices.

- Seasoned Backend Developer
- Proficient in Backend and REST API Development (PHP, Laravel, Node.js, Nest.js)
- Well-versed in both SQL and NoSQL databases, including MySQL and MongoDB
- Strong command of JavaScript technologies (Vue.js, jQuery, Ajax)
- Proficient in Linux, version control systems (Git), package managers (Composer), task runners (Webpack), and project deployment, including experience with platforms such as Digital Ocean.

WORK EXPERIENCE

01/03/2019–31/12/2022

01/01/2023–31/05/2025

Software Engineer

Senior Software Engineer

Jatri Services Ltd, Dhaka (Bangladesh)

- Develop and maintain robust **backend APIs** to support Android and iOS development teams, ensuring seamless cross-platform integration.
- Work extensively with **large-scale datasets** (10 M+ records), optimizing database queries and backend logic to enhance system efficiency and reduce server resource consumption.
- Analyze and modernize existing systems and databases to improve scalability, performance, and reliability.
- Incrementally transform legacy projects into scalable, modular software solutions aligned with evolving business requirements.
- Design and implement systems capable of handling **high-concurrency environments**, supporting a large number of simultaneous users without performance degradation.
- Specializing in **database architecture and optimization**, focusing on schema design, indexing strategies, and data normalization to ensure long-term maintainability.
- Contribute to **architectural planning** and technical decision-making to deliver scalable, secure, and high-performance backend solutions.
- Collaborate closely with cross-functional teams, including frontend developers, DevOps, QA, and product managers, to deliver robust features within deadlines.
- Manage task prioritization, sprint planning, and technical reviews as part of Agile development cycles.
- Utilize tools like **Git**, **Docker**, **Postman**, and **Supervisor** for version control, containerization, API testing, and process management.
- Implement **push notification systems** using **Firebase Cloud Messaging (FCM)** for

- real-time alerts and user engagement features.
- Utilize **Firestore services** such as Realtime Database and Authentication for seamless integration in cross-platform applications.
- Communicate technical concepts clearly to non-technical stakeholders, facilitating informed decision-making and smooth project delivery.

01/08/2017–28/02/2019

Web developer

Handymama.co Ltd., Dhaka (Bangladesh)

- Participated in the **requirement analysis, design, and development** of large-scale web applications.
- Provided **technical assistance** and code-level support to associate developers and team members.
- Contributed to the **entire software development life cycle**, from planning to deployment and maintenance.
- Supported **continuous improvement** by exploring new technologies, evaluating alternatives, and presenting suggestions during architectural reviews

EDUCATION AND TRAINING

01/06/2015–15/05/2019

Bachelor of Computer Science & Engineering

EQF level 6

Daffodil International University, Dhaka (Bangladesh)

22/10/2011–10/04/2015

Diploma In Computer Technology

EQF level 5

Feni Polytechnic Institute, Feni (Bangladesh)

PERSONAL SKILLS

Mother tongue(s)

Bengali

Foreign language(s)

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	B2	C1	C1	C1	C1

Communication skills

- Excellent communication skills gained through working with some foreign clients and co-workers
- Good networking skills gained through attending many conferences

Job-related skills

Languages: PHP, JavaScript, C.

Frameworks: Laravel, Lumen, Slim, JQuery, [Vue.js](#), Redis, Livewire, etc.

Databases & Storage: MySQL, MongoDB, SQLite

Version Control: Git with Smart Git Flow; used with Bitbucket, Github, Gitlab services.

Others: Webpack, npm, OAuth, JWT.

Collaboration Tools: Slack, Trello.

Operating System: Ubuntu, Windows

CLI: Unix Terminal (bash).

Server Administration: Web application deployment and scaling.

Code Editors & IDE: PhpStorm, WebStorm, VS Code, etc.

Frontend Development: Good working knowledge using HTML, CSS, Bootstrap, Tailwind, and related frameworks.

Projects

E-Commerce Application

Admin Panel :

- Users Management ▪ Order Management
- Category, Subcategory, Brand, Product Management
- SMS Integration ▪ Website Settings ▪ Access Control ▪ Inventories
- Product Shortage Warning ▪ Profit Calculation ▪ Invoice Sent to Users email from Panel

Website :

- Sign In (NB: Only by mobile numbers. When necessary, OTP will be used) ▪ Third Party Sign Up
- Category, Subcategory, Brand-wise Product Show
- Live Search ▪ Product Price range ▪ Cart ▪ Wish List ▪ My Orders
- Third Party Sign Up and many more

Technical Specification:

Admin Panel: Laravel, JQuery, MYSQL, HTML, CSS, Bootstrap 4, Matrix Admin Template

Website: Back-end API provided by Laravel, Front-end made with Vue.js, Vuetify, Vuex, Axios, Vue-router.

Distributor Management System

- Sales Management ▪ Stock Maintenance ▪ Employee Management
- Sales/ Receiving/ Return ▪ Admin Role Management Monthly Report
- Order Management ▪ Excel Import/Export ▪ Attendance Management

Technical Specification: Laravel, MySQL, JavaScript, AJAX, HTML, CSS

Business Management System

- Vendor Management ▪ Push Notification to Android App(with file)
- Merchant Management ▪ Google Map Integration
- Role Management ▪ User Graph ▪Statistics
- Access Control (IP Address Restriction)

Technical Specification: PHP, Laravel, MySQL, JavaScript, JQuery, AJAX, HTML, Bootstrap, CSS

Operation Management System

- Manage Operation ▪ User Management ▪ SMS Gateway
- Order Management

Technical Specification: Laravel, MySQL, JavaScript, AJAX, HTML, CSS
