OBJECTIVE

- I like to solve problems. It becomes challenging for me until the problem is solved. I like programming because of that persistence. Want to present myself as a confident individual and achieve the success that has been waiting for me.

EXPERIENCE

Software Engineer

ADN DigiNet Ltd.

📅 December 2021 – Present 📍 Gulshan-1, Dhaka

- Collaborated with project managers and the development team to design and develop multiple web applications based on project objectives.
- Conducted requirement analysis and implemented business logic according to technical specifications.
- Investigated and resolved software issues by analyzing logs and tracing source code.
- Contributed to the development and maintenance of various in-house products.
- Actively participated in team-building activities to foster a collaborative work environment.
- Technologies used: Laravel, React.js, JavaScript, MySQL, REST APIs, GitLab.

ACHIEVEMENT (PUBLICATION)

- Our paper has been accepted in International Conference on Advanced Technology (ICACT-2020) which title is **A Memory Efficient Tool for Bangla Parts of Speech Tagger**. [Paper Link](#)

PROJECTS

E-commerce Platform (B2B)

Developed a B2B e-commerce platform to facilitate bulk ordering and contract-based pricing. Streamlined quotation, order, and delivery workflows. Enabled real-time inventory and transaction tracking across a multi-vendor marketplace. Centralized management and analytics dashboards supported data-driven business decisions. Worked with Laravel and MySQL.

- Order management with quotation and fulfillment tracking
- Payment and invoicing integration
- Shipping and logistics coordination
- Sales reporting and performance analytics
- Firebase push notifications for real-time updates

SKILLS

- **Framework:** Laravel, NextJs
- **Scripting Languages:** PHP, Python, JavaScript, JQuery, HTML, CSS
- **Library:** ReactJS, Bootstrap
- **Programming Languages:** C, JAVA
- **Database:** MySQL
- **Version Control System:** github, gitlab
- **Operating System:** Windows, Linux, Mac
- **Project Management Tool:** Jira, Notion

EDUCATION

M.Sc. in Computer Science

Jahangirnagar University

📅 December 2020 – February 2022

CGPA: 3.50/4.00

B.Sc. in Computer Science

United International University,

📅 October 2015 – December 2020

CGPA: 3.34/4.00

Higher Secondary Certificate

Ideal College, Dhaka

📅 2013 – 2015

CGPA: 4.17/5.00

Secondary School Certificate

Dhanmondi Govt. Boy's High School, Dhaka.

📅 2002 – 2013

CGPA: 4.56/5.00

STRENGTH

- Passionate
- Dedicated
- Teamwork
- Patience
- Empathy
- Continuous Learning

School Management System

Web-based School Management System for streamlining academic and administrative activities across schools. Enables centralized control of student data, class schedules, attendance, fees, and communication. Designed for multiple user roles including admin, teachers, students, and parents. I am working with Laravel, MySQL.

- Multi-Role User System (ex. Admin, Teacher, Student, Parent)
- Student Enrollment and Profile Management
- Attendance Tracking and Reporting
- Class Timetable and Exam Scheduling
- Fee Management and Online Payment Integration
- Academic Performance and Gradebook
- Notifications and Messaging (SMS, Email, Push)

Reward Management System

Reward Management System is a web-based tool where clients can create reward-based campaigns for their products. In the Rewards Management System, I am working with Laravel, MySQL, ReactJS, Highcharts.

- Created CRUD for various types of campaigns in the system.
- Created nested location-based CRUD in the system where clients can select the areas of campaigns.
- Generate unique number.
- Created QR code-based campaigns.
- Implement Permission-Based Authorization.
- Implement SMS Api and Integrate Push pull or Inbound sms.
- Schedule, Queue management, and Observer used my project

URL Shortener

User Can insert a long url then convert to a short url, then click on a short url then redirect to the main url. I worked on Laravel, MySQL, ReactJS, Interia, Tailwind.

- Integrate Interia Routing Laravel with react

HOBBIES

- Sports
- Travelling
- Listening Music
